

PIOTR WANDYCZ

senior .NET developer | piotr.wandycz@gmail.com | wandycz.net

Professional Experience

Accenture · senior .NET developer, contractor Jan 2024 – currently, remote
I'm currently working as a senior .NET developer with team leader duties, helping a customer to migrate to retail fuel and fleet mobility payments solution, for millions of it's users + on improving performance of the existing system. In one of my previous projects we were introducing database sharding on an existing solution.

Nexer Insight · senior .NET developer Jan 2022 – Jun 2023, Wrocław
I was working as a senior .NET developer for a Danish customer on a massive Azure IoT solution (380k devices).

Atos Global Delivery Center · .NET developer Jan 2017 – Dec 2020, Wrocław
I was working as an application developer and application architect, organizing trainings for my colleagues during my free time. After two years I've also got responsible for interns training.

Micro Solutions · .NET developer Mar 2015 – Aug 2016, Wrocław
I was working as a .NET developer involved in creating ASP.NET development programs.

Dräger Polska · .NET developer Jul 2014 – Feb 2015, 2016, 2019, remote
I've created two medical themed WPF products that I've used to support periodically.

Factory Code · web developer, owner Nov 2013 – Jun 2014, remote
I was running a company with a friendly graphic designer, doing web development in HTML, JS and PHP.

Microsoft Polska · .NET intern May 2013 – Jul 2013, remote
As an intern I've had to make three Windows 8 programs. One got promoted to Microsoft Store front page.

Webstruments.pl · junior .NET developer Aug 2012 – Dec 2012, remote
I was working as a junior developer, creating Windows Phone and Windows 8 applications.

Skills · primary (or daily work) · secondary (or used long time ago)
